

# DISCUS PELLETS

A complete, well-balanced diet for Discus

New Era has used the very latest technology and nutritional enhancements to produce a soft and malleable sinking pellet for Discus. Designed to lock in nutrients and aid water quality, this diet is both highly palatable and digestible.

Containing the highest quality ingredients and formulated to meet the nutritional demands of Discus, this high-protein diet is manufactured using only the highest quality Bloodworms, a unique tailored mineral profile and a rich source of essential vitamins.

Discus Pellets incorporate all the necessary dietary components to promote vibrant colour and support health and vigour.

Available in:  
300g pots, 1.8 kg pails and 25kg bags
